

LoRa network wireless data concentrator

Applications

Data concentrator for smart meters for electricity, flow, pressure, temperature, level, etc.

Technical Data

LoRa wireless frequency band
Operating range: 1Km
LCD display
Communication port compliance with IEC62056-21
Keypad for local settings
Input power: 220VAC

Wireless RTU GPRS Flow Transmitter

Applications

Wireless GPRS data transmitter for flow input.

Technical Data

upto 3 analog Input for different types of flowmeters.
upto 3 input for pulse.
Totalizer for commulative flow
Settable parameters for flow range, etc.
GSM/GPRS frequency band transmitter
Input power: 12-24VDC

Wireless RTU data logger

Applications

Pulse counter and GPRS transmitter for different types of sensors and devices with pulse output including flowmeters, encoders, etc.

Technical Data

Operation based on battery power.
GSM/GPRS transmitter
Upto 10 pulse inputs
